

# YOUR ENTIRE SAP SYSTEM SUMMARIZED IN ONE REPORT

## BW FITNESS TEST™

### GET A HEALTHY SAP BW SYSTEM AND BENCHMARK IT AGAINST COMPETITORS

Your SAP Business Warehouse transforms and consolidates business information from any source system – make sure you know how it is doing. Get a detailed overview of your business warehouse with the BW Fitness Test. This solution collects various data from your system and runs a comprehensive analysis that indicates problematic areas. It also allows you to benchmark your system against over 300 other SAP BW systems, so that you know where you stand and what needs to be improved to unlock the full potential of your system:

- Identify and fix system pain points
- Check for data growth and data distribution
- Benchmark and compare against 300 other SAP BW systems
- Speed up query runtimes
- Boost BW system performance

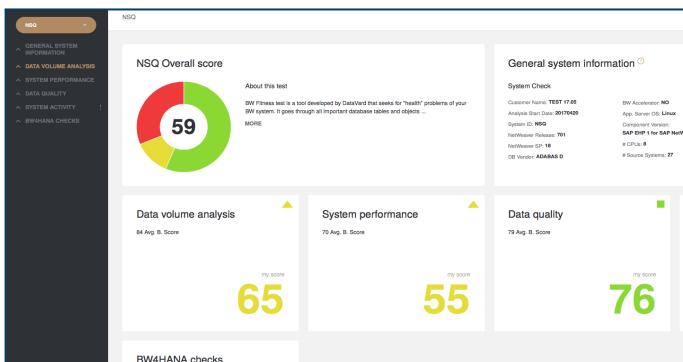

## ERP FITNESS TEST™

### TAKE A CLOSER LOOK AT YOUR SAP ERP SYSTEM

Enterprise resource planning is key to business operations. But while your business is growing and expanding its scope, your SAP ERP system experiences heavy data growth, slows down, and gets more expensive to maintain. With ERP Fitness Test, you will quickly identify your system's strengths and weaknesses, benchmark it against other systems, troubleshoot bottlenecks and boost its performance. The test covers:

- Data volume analysis coupled with data growth forecasts
- Data quality check for duplicates and incomplete data
- Performance assessment measuring system's speed and reliability
- Check for archiving potential
- Compliance and security checks
